Byron Smith - City Manager
City of Hermiston
180 NE 2nd Street Hermiston, OR 97838

Dear Mr. Smith,

I wanted to provide you with an update regarding our earlier proposal. The following is a breakdown of cost associated with creating fields at EOTEC, and the companies in our community willing to donate time and equipment to the project.

Cost of the project:

- Chemical and field kill: \$1,500.00 - Donated by Maddox Hay & Schlupe Farms
- Land Leveling: \$8,000.00 - Donated by G2 Farms
- Excavation: \$9,500.00 - Donated by Purswell Pump Company
- Materials (Pipe and sprinklers, etc.): \$39,000.00
- Labor to install: \$12,500.00 - Donated by Purswell Pump Company
- Lights/Poles (estimate): \$20,000.00 - Donated by Umatilla Electric Cooperative
- Grass Seed/ Fertilizer: \$4,250.00 - Donated by G2 Farms & Schlupe Farms

We are attempting to obtain the cost associated with the materials for pipes and sprinklers from additional community donations and grants.

Sincerely,

Bryan Maess

August 13th
